

Technical Data Sheet

Product Specification

The support rail shall be a fixed bed rail 36" / 91cm in length, installed between the mattress and box spring, and secured in place with a safety strap. The horizontal handle shall be constructed of 1" / 2.5cm tubing encased by 0.5" / 1.3cm thick foam for a total 1.5" / 3.8cm rail diameter, extending 19.75" / 50cm across. A storage compartment shall span the opening underneath the handle. The support rail shall be height adjustable between 18-22" / 46-56cm. The product shall have a user weight capacity of 300 lbs / 136 kg, and is intended only for moderate vertical load bearing. The support rail shall be HealthCraft Products model AST-S.

Key Features

- Comfortable EVA Foam Grip
- Storage Compartment
- Height Adjustable

Codes and Standards

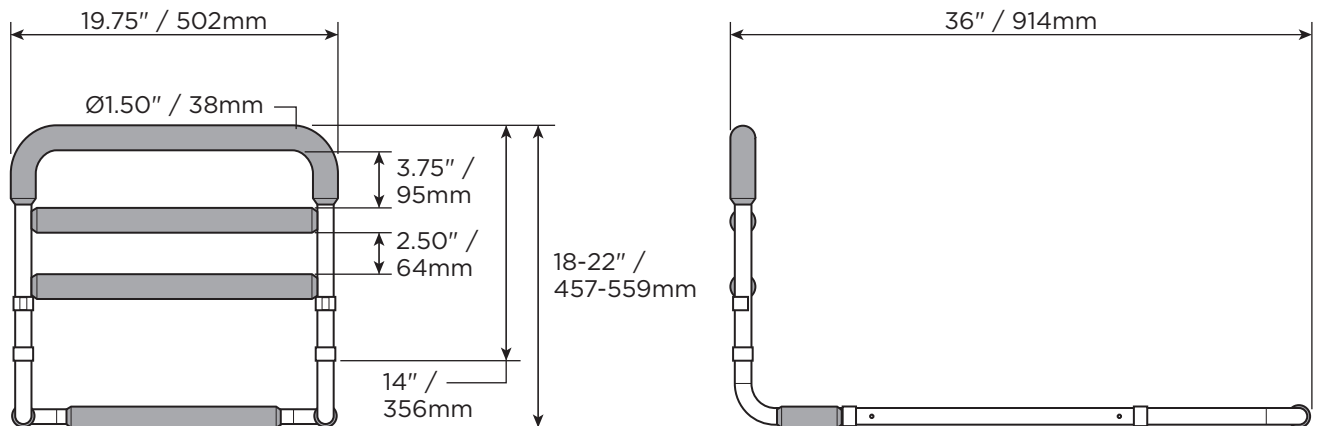

Complies with ASTM F3186-17
(Standard Specification for Adult Portable
Bed Rails and Related Products).
